

## Errata Sheet

---

This errata sheet outlines the following errors within the Cornwall Retail Study, published in November 2011:

- o paragraph 2.16 makes reference to two HMA's in Cornwall, as defined by the draft Regional Spatial Strategy for the South West, whereas the draft RSS defines three HMA's (West Cornwall, Polycentric Devon and Cornwall and Plymouth including the former Caradon area).
- o paragraph 2.19 wrongly omits St Ives from the list of other main towns (Structure Plan Policy 25 settlements)
- o The various versions of tables 16 at appendices Q, R, S & T in the appendices to the study refer to comparison goods capacity. The titles to all of these tables are correct although reference is made in some of these table to 'convenience expenditure' which is incorrect and should read 'comparison expenditure'
